

## September 28, 2017 Center Director Meeting Questions and Suggestions

### Background Checks

- Can interns get away with just the **Portable Background Check**?
- Who do we contact at the state level (who has the decision-making power) to communicate about the duplicative nature of **Portable Background Checks**?

### Databases

- We need a key to translate PSESD/Educare job titles to the EL Database.
- We need an email when we have received a CAP. Please don't just put it in ChildPlus and not inform us. Notes (specific) regarding the CAP would be helpful so we can really understand what it is regarding... Details needed.
- **"Teach Child"** holding slot in each class. Will the system delete **Teach Child**?
- FSS Documentation **Module**
  - Enrollment documentation.
  - Minutes reg on module.
  - Doesn't match ELMS says.

### DLL Coaches

- Are the **DLL Coaches** the same people who supervise BIAs?

### Enrollment/ERSEA

- **Children on IEP** that are not qualifying based on income are still prioritized on the waiting list as 400 or 500. We have so many **income-eligible** families on the waiting list that the children on **IEP's** are not being offered a sport unless they are also **low income**.
- Clear last year's CAPS; too many to filter through.

### Litmos/Online Training

- Can we as Center Administrators have access to other tracks on the **online courses**?
- What is the **Litmos** cost per person?
- Could we use non-ECEAP dollars to pay for non-ECEAP staff to take **online classes**?

### MyTeachingStrategies

- How do you run an interrater reliability report to see who is current on **MyTeaching Strategies**?

### Miscellaneous

- Parent Volunteer Training

### Site Support

- Should I contact my team manager for everything, or can I go directly to the coach if I know who to contact? [Yes, if possible, cc the team manager on the email.]
- I enjoyed coming to the ESD to get everything answered in person. [Could have meetings every three months.]
- **HNS:** What do other sites do to support their school nurses when they are feeling overwhelmed with all of the HS requirements?
