## E-ALERT – E-ALERT – E-ALERT

### **MyTeachingStrategies**

#### **Attention all teaching staff and Center Directors:**

We have information from DEL for ECEAP and information from Carol Weaver who supports our EHS/HS programs about the current status of MyTeachingStrategies and the links to child enrollment data.

**FROM DEL for ECEAP:** As of 10/5/2017 ELMS is not able to transfer data to GOLD at this time. Updates to ELMS will not be reflected in MyTeachingStrategies until Tuesday the 10th. Please check the ELMS News page when you log in to MyTeachingStrategies for any additional updates.

**FROM CAROL W. for HS/EHS Center-Based and Home Visitors:** Please **DO NOT** use any of the new options that appear for managing children in the new platform. (Teachers can now see and select Add children Delete children and Add a class). **These options should not be available for our users.** Our system is bridged with ChildPlus, which means once enrollment is completed and entered, then the classroom is automatically fill with the children assigned to that classroom. Any changes in Gold need to go through ChildPlus. This is a one-way bridge! If a child is deleted we will lose any data previously collected for that child. Adding children will cause duplicates of that child. Any documentation or checkpoints added to those children who are not attached to ChildPlus will be lost when they are removed.

**If a child is not showing in Gold,** make sure that your family support staff have:

- accepted them,
- assigned them to a class and
- asked Tiffany to enroll them.

**If a child is still showing and is no longer enrolled in the class,** your family support staff should have requested that they be dropped\* in ChildPlus.

\*Note: Once they are dropped in ChildPlus they will continue to show in Gold for 14 days to give teachers time to complete entry or print reports. You can go to their enrollment screen in ChildPlus to see if they are on their 14 day hold to be archived in Gold.

*Thank you for your patience as we work with Teaching Strategies to address the things that are not working in the new platform.*
