

# Required 45-Day Screenings Summary Procedure

## Purpose

This informs Early Learning site teams which screenings are due within 45 days of a child's first day in the classroom and provides the location of the procedure for each screening.

## Procedure

The following screenings must be completed within 45 days of the child's first day of class. Screenings should be completed as soon as possible when a child enters the program to rule out or identify physical, sensory, developmental, or behavioral concerns. All identified concerns require follow-up. Please see the appropriate *Procedure* document in the Related Documents section below for specific instructions:

- Height and Weight Screenings
- Vision and Hearing Screenings
- Developmental Screenings
- Behavioral Screening - ***Head Start and Early Head Start Only***
