

Transition to Kindergarten

ECEAP's philosophy is to ensure that families make a smooth transition to kindergarten. To meet that objective, staff typically undertake a variety of activities. These include:

- Surveying families from the previous year about their transition experiences
- Forming a committee to plan the transition process
- Writing and submitting a Transition Plan to PSESD
- Having a family activity focusing on transition to kindergarten
- Providing families with summaries of their child's educational and health information

Forms in this section to support these activities include:

Section	What it is about
Transition Planning Procedure	The procedure and timeline to follow to make a center transition plan
Kindergarten Transition Survey	A survey to gather information from past parents about transition
Family Transition Summary—an optional form to be shared with parent permission	A form to be completed by families and given to kindergarten staff
Spring Transition Summary	A form to be completed by teachers and given to the family
