

Vision and Hearing Parent Interview Questions (0-3) Part 1 of 3

Child's Name:

Date:

Vision and Hearing Concerns

These topics are meant to be introduced within the context of the initial home visits to help alert the interviewer to the need for further investigation in the area of vision and hearing concerns. This part of the summary may be conducted by a parent educator, health professional, intake coordinator, or other appropriate team member.

1. When was your baby's last "well baby" check up?
2. How would you describe (child's name) birth?
3. Did your baby have newborn hearing screening done in the hospital? Did he/she pass? (if not, what happened next?)
4. Has (child's name) had any ear infections that you're aware of?
5. Has (child's name) hearing or vision ever been tested by a doctor? (If yes, when was that and who did the evaluation? What were the results?)
6. Do you have any concerns about the way (child's name) looks at you [or books or watches TV]?
7. Do you have any concerns about the way your child is learning to use his/her voice (or is learning to talk)?
8. Do you have any concerns about the way (child's name) responds when you talk to him/her?
9. Does anyone in your family (immediate family or uncles, grandparents, etc) have a hearing loss or a visual impairment?
