

2018-2019 ECEAP Self-Assessment

The ECEAP Self-Assessment reviews your compliance with ECEAP requirements found in the current ECEAP contract and the ECEAP Performance Standards and is one component of an on-going cycle of continuous quality improvement. ECEAP Performance Standard A-207 requires all contractors to include ECEAP staff and parents in this annual assessment and document the results on this form.

ECEAP Performance Standard Section D: Health, Safety and Nutrition		Fully Met	Action Required	Notes

D-220	Transportation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	

Describe your strengths in Section D: Health, Safety and Nutrition for this year:

We continue to implement comprehensive health, nutrition and safety services across our program. This year, we worked on strengthening our system for monitoring Safe Arrival/Departure and Transportation. We developed a new Safe Arrival/Departure and Transportation Monitoring Checklist and will be implementing with ECEAP sites next Fall.

Immunizations statistics have improved significantly over this year, due to close monitoring and follow-up by the Health/Nutrition/Safety Coaches in collaboration with our Health/Nutrition/Safety Consultants.

We strengthened staffing within PSESD by specifically adding another Registered Dietitian and Registered Nurse.

The Health/Nutrition/Safety Consultants spent the year working with site staff to continue to ensure their own capacity and knowledge related to CACFP guidelines and fully implemented CACFP regulations around whole grains and lower sugar products.

ECEAP Performance Standard Section D: Health, Safety and Nutrition	Fully Met	Action Required	Notes
<p>Describe opportunities for growth in Section D: Health, Safety and Nutrition:</p> <p>The monitoring system for Health/Nutrition/Safety Coaches is very rigorous and time-consuming; we will be reviewing our system and defining roles/responsibilities within the Health/Nutrition/Safety Team and within roles of other staff within other content areas.</p> <p>In the past years, we have provided opportunities to bring all ECEAP contracted nurses together to provide updated information and training regarding health services specific to ECEAP Performance Standards. We were unable to do this for the past 2 years due to staffing capacity. We look forward to bringing this opportunity back this next Fall.</p>			
<p>What are some program goals in Section D: Health, Safety and Nutrition for next year?</p> <p>We are continuing to focus on health data quality in ELMS and working with site staff to ensure they follow up with entry of accurate data after enrollment-particularly updating immunizations, accurately entering chronic conditions/life threatening conditions requiring Child Health Plan, entering well child exams, and entering dental treatment.</p> <p>We also have a continued focus on Healthy Habits using Ready, Set, Go 5-2-1-0 and our "Big Book" lessons. We will offer this at New Staff Training again this year and will be monitoring for implementation across our program, then offering further trainings to individual sites if needed.</p>			
<p>List any requests for technical assistance from DEL for next year: None</p>
